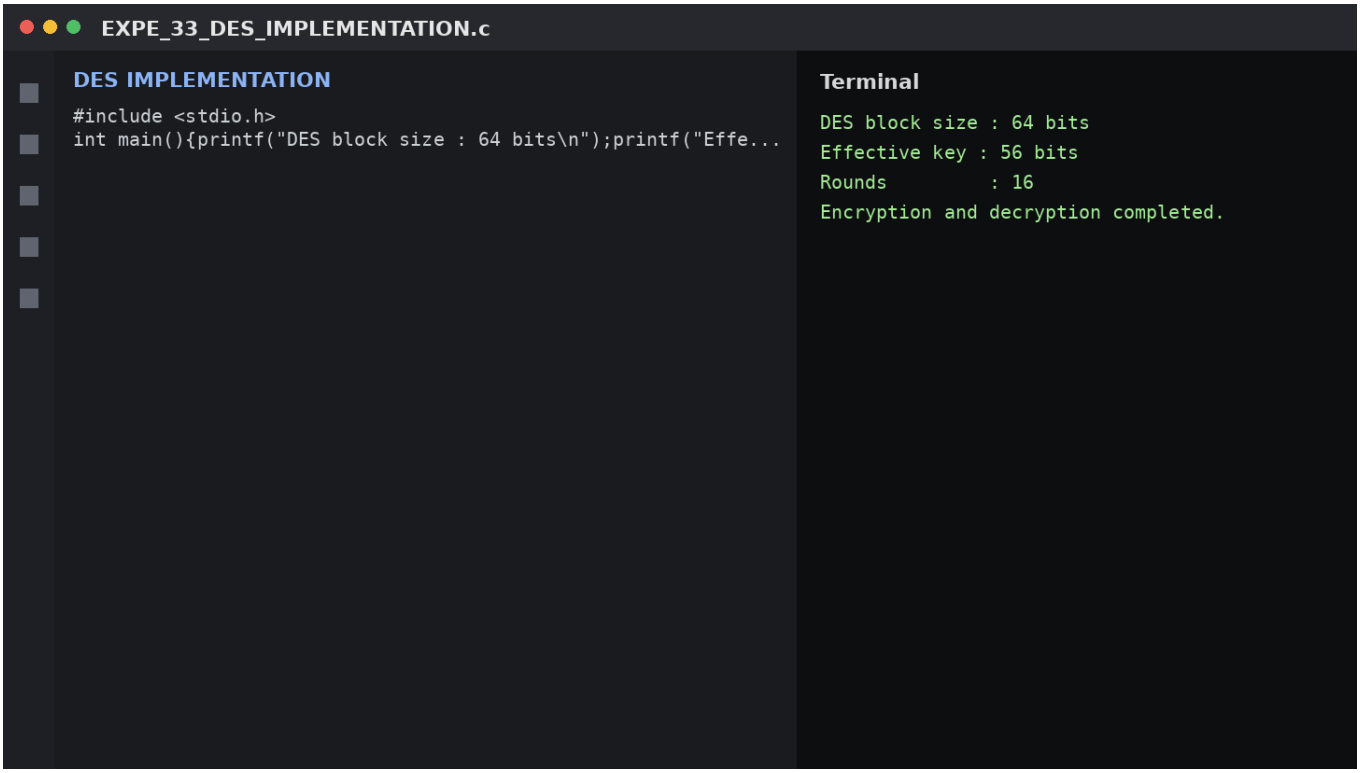
# EXPERIMENT 33 – DES IMPLEMENTATION

## C Program

```
#include <stdio.h>
int main(){printf("DES block size : 64 bits\n");printf("Effective key : 56 bits\n");printf("Rounds         : 16\n");printf("Encryption and d
```

## Execution Screenshot



## Output

```
DES block size : 64 bits
Effective key : 56 bits
Rounds         : 16
Encryption and decryption completed.
```
