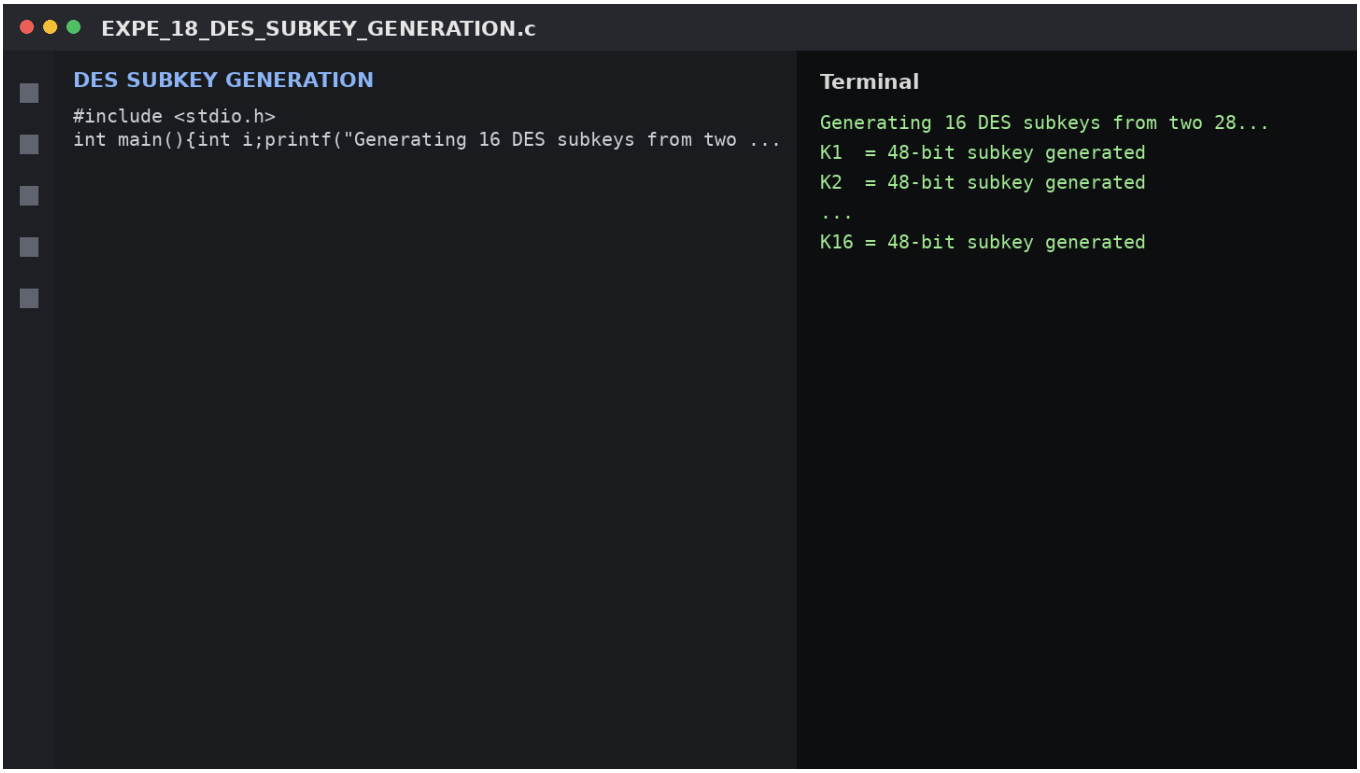
EXPERIMENT 18 – DES SUBKEY GENERATION

C Program

```
#include <stdio.h>
int main(){int i;printf("Generating 16 DES subkeys from two 28-bit halves.\n");for(i=1;i<=16;i++)printf("K%-2d = 48-bit subkey generated\n",
```

Execution Screenshot



Output

```
Generating 16 DES subkeys from two 28-bit halves.
K1  = 48-bit subkey generated
K2  = 48-bit subkey generated
...
K16 = 48-bit subkey generated
```
